BSI-IGZ-0303-2017

ISO 27001 Certificate in compliance with IT-Grundschutz

Technical facility management for high-availability data centers

for e-shelter services GmbH

valid until: 16th December 2020*

e-shelter plans, designs and operates high-availability data centers. The subject of evaluation are the corporate divisions e-shelter services GmbH, e-shelter facility services (Schweiz) AG and e-shelter facility services (Austria) GmbH (further called „e-shelter services“) for the locations Frankfurt (D), Rüsselsheim (D), Berlin (D), Unterschleißheim (D), Rümlang (CH) and Vienna (A). The core task is the technical operation of high-availability data centers. For this purpose all necessary networks, applications, rooms and buildings are considered, which represent the basis of the business processes of a technical facility management in their entirety.

The subject of certification stated above was audited by Alexander Göbel, certified Auditor for ISO 27001 audits in compliance with IT-Grundschutz, in accordance with the certification scheme of the German Federal Office for Information Security (BSI). The conclusions drawn by the certified Auditor and included in the audit report correspond with the evidence given.

The Certification in accordance with ISO 27001 in compliance with IT-Grundschutz as confirmed by the Certificate includes the control objectives and controls included in Annex A of ISO/IEC 27001 and the corresponding implementation advice and guidance on the best practice from ISO/IEC 27002. This Certificate is not a recommendation of the subject of certification by the BSI. The BSI neither implies nor explicitly states any warranty for the subject of certification.

This Certificate applies to the stated subject of certification exclusively and is only valid in connection with the complete certification report.

Further information concerning the subject of certification and the audit process are contained in the annex to the certificate.

This document is the english translation of „ISO 27001-Zertifikat auf der Basis von IT-Grundschutz BSI-IGZ-0303-2017 für e-shelter services GmbH“. In cases of doubt the German version shall prevail.

Bonn, 17th December 2017
For the Federal Office for Information Security (BSI)

Bernd Kowalski
Head of Department

* Provided that the surveillance audits performed annually from 17th August 2017 proved positive.
